Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE THREE MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 20, 2005 has been entered.

Claim Rejections - 35 USC § 112

2. Claims 7 to 12 are again rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. In the decision of June 15, 2000 the Board of Appeals held, as a new grounds of rejection, that that the specification does not disclose how the metallic blank of the invention is drawn while at the same time producing a rotary member that includes a boss and a flange having the same thickness, as required by the claims, in a manner such that one skilled in the art would be enabled to practice the invention.

The remarks filed June 20, 2005 have been considered. Applicant states the desire to have the Board of Appeals' new grounds of rejection, repeated above, made of record and the prior art rejection over Neumeyer and Cros withdrawn. It is noted that

this is exactly what was done in the last Office action in this application (Paper No. 17 mailed June 30, 2003).

The June 20, 2005 submission also includes a copy of the declaration under 37 CFR 1.132 by Yasuhiro Takahashi which the Applicant desires to have acknowledged. Receipt of the Takahashi declaration is acknowledged. It is noted that the examiner has commented on the Takahashi declaration in various prior Office actions, as well as in the Examiner's Answer prepared in the parent application (SN 08/841,108). The present status of the Takahashi declaration is moot since it pertains only to the prior art rejection which was reversed by the Board of Appeals in the decision of June 15, 2000, and, thus, is no longer outstanding.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
